

DIDSBURY PIONEER

VOL. XXVIII, No. 21

DIDSBURY, ALBERTA, THURSDAY, MAY 28, 1936

\$2.00 per Year. 5 cents a copy

Sportsmen Elect Officers.

The annual meeting of the Fish and Game Association, was held at the C. P. R. waiting room on Tuesday, with Mr. J. A. McGhee in the chair.

The president reported on the work of the association in the past and said that while nothing spectacular had been accomplished some good work had been done. It was stated that since the association had been organized the sale of licenses had materially increased and infractions of the game laws had been brought down to a minimum. It was reported that the members had been very successful in the propagation of game birds and that probably 200 pairs of pheasants had been raised and liberated and these were now increasing very rapidly and noticed many sales from where they were liberated.

The prairie chicken, partridge and hunsarians were more numerous this year due no doubt to the protected seasons.

It has been noted that many fishermen from Calgary, Three-Hills, Drumheller and other places were making regular fishing trips to the waters west of here and added to the fact that more citizens are now enjoying this sport, the waters will soon be depleted if the government does not soon take some action to restock the streams. The fee for fish license this year has been raised to \$2.25 which would probably not be too high if the money so raised was spent on restocking. Mr. Fair has again been appointed fish warden for this year and is busy working up those who have overlooked purchasing the necessary license. There are a number of ideal locations in the district where fish rearing ponds could be established.

Const. Dobbin was complimented on the harmonious and efficient manner in which he had co-operated with the local association and a resolution of thanks was passed thanking him for the same.

The following officers were elected for the ensuing year: Hon. President, Mr. J. A. Rodd and Mr. B. Lawton; president, Mr. Hugh Lee; vice president, Mr. Geo. J. J. J.; secretary, Mr. J. E. Gooder; executive committee, Messrs D. Dippel, H. Ross, J. A. McGhee, Geo. Liesemer, H. C. Liesemer, J. Johnson, C. Mortimer, W. D. Davies, Bill McFarquhar, Tom Shannon, W. McCoy and J. Hoesgood.

Piano Recital Given by Pupils

A large number of parents and friends attended a very pleasing recital of the piano given by the pupils of Miss Victoria Thompson, L.R.A.M. in Knox United Church on Tuesday evening. During the evening, violin solos were rendered by Mr. Hans Olsen.

The young musicians displayed a very fine knowledge and appreciation of the numbers they presented. Those taking part were: Rita Scruton, Bennie Wyman, Joyce Brown, Eva Brown, Ona Brown, Helen Teskey, Bessie Findlay, Ruth Findlay, Lorna Clarke, Bruce Clarke, Vivian Githness, Jean Robertson, Mary Robertson, Edith Murphy, Clifford Murphy, Mildred Traub, Russ Traub, Winnie Adlard, Donald Phillips, Evelyn Methew, Evelyn Brooke, George Hawkes, Mervyn Hall, Janet Adam, Beatrice Hayes, Lucille Swalm, Joyce Levagood and Connie Hoesgood.

Olds Farmer Fined.

Ira E. Pasley, farmer at Olds, was fined \$75.00 by Mr. Justice Ewing on a charge of having assaulted and caused grievous bodily harm to Mary E. Maddux.

Pasley refused to allow Mrs. Maddux entrance to the farm, over which there was a dispute. During a tussle, he struck Mrs. Maddux with a shot gun over the head. He also fired the gun in the air several times. His Lordship told Pasley that he may have had some provocation, but was very angry when he made the assault. —Calgary Herald.

Cartier Oil Well Down 250 Feet

During the holiday quite a number of Didsbury people visited the oil well which is being drilled at Coal Camp.

After spending the winter putting up buildings and installing machinery the big hole is now pounding away. The driller reports the hole is now down 250 feet.

It is reported that another well will be drilled a few miles farther up the Red Deer River.

LOCAL & GENERAL

Mr. and Mrs. Hilliard and Mrs. McCoy were visitors to Calgary Thursday last.

A number of the young people of Westerdale enjoyed a game of tennis on Jones' court last Sunday.

Mr. Tom Burgess and Mr. West of Drumheller visited with Mr. H. Pearson on Monday.

Mr. and Mrs. C. F. Dooley drove to North Battleford on Friday to spend the holiday, returning on Monday.

Miss Daisy Wigley, of Edmonton, spent the holiday with her mother, Mrs. Wigley, of Westcott and her sister, Mrs. Noble Cole.

St. Cyprrian's Anglican Church, May 31st: Celebration of Holy Communion 11.30 a.m. Rev. A. D. Currie, of Crossfield officiating.

English Watches, Grandfather Clocks, and Chimes. Everything Ancient and Modern. Bring it to W. Monteith, North End Jeweller.

"Going Wild" at the Opera House tonight (Thurs.) May 28th. Featuring Joe E. Brown. Good to the last laugh. 55c and 25c.

Mr. John Wulff, of Swallow was a visitor at the home of Mr. and Mrs. Chris Mack for a few days last week.

"Kiss Me Again" at the Opera House on Thursday June 1st. When a beautiful girl says "Kiss me again!"—Beware!

Mr. N. B. Sayler who for the last year has been residing at Kitchener, Ont., returned to Alberta last week and is now residing on his farm south-west of Didsbury.

A General Hospital for sick Watches, Clocks, Phonographs, Sewing Machines, Etc., Etc. In front corner of Club Lanch. All work guaranteed.—Advt.

The opening summer dance will be held in Community Hall tomorrow (Friday). Good music! Good lunch! Good time! Bellamy Orchestra. Popular admission! Gents 75c. Ladies free.

Westerdale Ladies Aid will hold a lawn social at the home of Mr. and Mrs. Jones on Wednesday evening, June 3rd at 7 o'clock. All kinds of games will be played, including tennis. Refreshments will be served. Come and spend an evening of real enjoyment. Everybody welcome.

Jim Morris and Bill Hartley spent the 25th with friends at Bowness Park, Calgary. On the way home in the wee small hours, Jim took a notion to feel tired, parked the car safely in a ditch and spent half-an-hour in peaceful slumber, while Bill was left to his own solitary reflections and a cigarette in the moonlight.

More Stories Than Fish

Most of the fishermen of the district went out west during the holidays. They report lots of hiking but not many fish. The streams are low and they say that trout are not running. The best success was obtained in the Red Deer where a few good trout were caught. Tom Shannon brought in two big ones which weighed 4 lbs. and 3 lbs. 15 oz., respectively and Bert Fisher got two which totalled 7 lbs. The rest of the party were without luck.

Frank Hesselton, Bill McFarquhar and Lorne Frey say they went just a little further up than anyone else and managed to land a half dozen good ones.

Tommy Johnson, Jim Kirley, Herb Liesemer and Geo. Liesemer, tried out the Clearwater but were without luck. They got into a snowstorm and decided to return home.

A number of good sized pike were caught in the Dog Pound and Noble Cole tells of landing a big seven pounder.

Golf Tournament Starts Sunday.

The first round of the Herald Trophy golf tournament, will be held at the Didsbury links on Sunday afternoon. The tournament starts at 1 p.m. and all members of the local club are expected to be on hand as many visitors are expected and a competitor will be needed for every visitor.

CARD OF THANKS

Mr. and Mrs. Joe Kynel and family wish to thank the Didsbury branch of the Red Cross, Rugby W.L. Didsbury Oddfellows and all those people who have so kindly assisted them since losing their home and effects by fire. They also wish to thank the Ladies of Parkland (Alberta) Ladies Aid who kindly supplied them with clothing.

Dr. Evans, was a Calgary visitor on Tuesday.

Field Day and Sports.

The Canadian Legion are busy making arrangements to make their first annual Field Day at the fair grounds, one of the outstanding days of the year for both the children and older people of the district.

The grounds will be opened at 11 o'clock and all who wish to bring lunch can picnic in the grove and will be supplied with coffee at noon and all the children will be given free ice cream.

Arrangements have been made to close the town school at noon and it is expected that the country schools will also close, giving the children an opportunity to attend.

The sports will commence at 1 o'clock when there will be running races, jumping, hop-step and jump and novelty races, and cash prizes will be given. A special attraction by the Legion, of Early Pioneer Days, when an Indian raid on a covered wagon will be shown.

In the evening a league baseball game between Innisfail and Didsbury, will be played on the baseball grounds.

At 9 o'clock a grand dance will be held in the Opera House with Bellamy's orchestra supplying the music.

Rural School baseball clubs wishing to enter the tournament on Field Day, June 3rd, must make entry with C. E. Reiber not later than June 2nd.

Obituary.

HAYNES

The death of Irene Elizabeth, 14 years old daughter of Mr. and Mrs. John Haynes occurred in Calgary on Wednesday, May 20th. The funeral will be held at Crossfield on Friday, for H. Young officiating.

Born in Crossfield, Miss Haynes moved with her parents to the Didsbury district where she resided for a number of years. She attended Mona School.

Miss Haynes is survived by her parents and three sisters, Evelyn, Gladys and Gwen, and one brother, Isaiah, all at home.

Developments In Transportation

(Second Article)

In a previous article under the above heading the fact was emphasized that the motor bus and freight and express truck was offering increasingly serious competition to the steam railways with the inevitable outcome that the losses in revenue sustained by the railways would render impossible any reduction in freight rates now so generally demanded by farmers who must rely upon the railways to transport their products and supplies.

The railways are required to expend enormous sums every year in the upkeep of their systems, in additions and betterment to property, rolling stock, etc. For such purposes they expend large sums annually of both current revenues and borrowed capital. As a result they are large employers of labor. Their aggregate tax bills to the Dominion, the Province, and municipalities run into millions of dollars.

The ability of the railways to finance such expenditures and to continue programmes of improvement in future must always be determined by the public. That fact surely is recognized.

The motor passenger buses and freight and express trucks, on the other hand, are not required to keep up the highways over which they operate. The people do this by way of taxation. All these buses and trucks contribute to an annual license fee and the regular tax on gasoline. In return the highways are provided and maintained for them. Yet it must be admitted that these heavy buses and trucks are more destructive of the highways than countless numbers of ordinary automobiles.

Buses and trucks operate on schedule. Notwithstanding heavy rains, nothing slows and they continue to run, and as a result do damage to the highways costing hundreds of dollars to repair, and the people foot the bill. The question may well be asked by the people who pay these bills whether this is fair competition to the railways who are called upon to maintain their own highways?

Railways are precluded by law from operating local freight trains on Sundays. But motor trucks are found operating on the highways on Sundays, if not hauling loads of freight or express, at least making Sunday trips to business centres in readiness to start out early Monday morning with a paying load.

These trucks, too, operating over a fixed route, pick up orders from merchants along the line or their way to wholesale centres, turn those orders over to the wholesale houses on arrival, and later pick up the goods and deliver them along their route on the return trip. It means a fast and convenient service. It is even eliminating the need for commercial travellers. It is a service which the railways cannot supply, but it is taking substantial revenues from the railways, and making it more and more difficult for the latter to maintain their other services which neither motor buses nor trucks can supply, but which, after all, are still the backbone of the transportation systems of the country.

Already the people are beginning to pay in other ways. Local train services are being cut down; daily trains are being replaced with tri-weekly services; mails formerly received daily are coming only every other day. If the next step to be the transfer of the mail services from the railways to the buses and trucks? Staffs at local railway stations are being reduced to the minimum.

Nevertheless the people, and particularly the farmer producers, must continue to depend upon the railways, crippled though they be by these losses of revenue for their major services.

What is the solution? Frankly we do not know. As stated in our previous article we are not an apologist for the railways. We hold no brief for them. Rather we are stating what is becoming an increasingly grave question for the people who, in the final analysis, pay the bills either as individuals, or collectively as taxpayers.

Are the gains in service and possibly lower rates on the lighter classes of freight and express over short hauls resulting from these commercial operations over the highways more than sufficient to compensate for the losses which ultimately the people must sustain in connection with all heavier traffic and long haul traffic, both light and heavy? That is the question, not only for the railway managements, but for the taxpayers of Canada. In other words, will the gains offset, or counter-balance, the losses?

Another question is, Should not these commercial enterprises, motor passenger buses and freight and express trucks, be made subject to a greater measure of governmental control? Should they not be called upon to pay something more than a nominal license fee and the regular gasoline tax for the use of the highways, and should the public highways in order to more adequately assist in meeting the cost of maintenance of these highways? Should not a per ton per mile tax be imposed on trucks, or a mileage tax on passenger fares?

That is, should the taxpayers continue to pay for the construction and upkeep of these all-weather highways and grant what is practically free use of them to commercial enterprises operating for private profit and use as operating do more damage to the highways than do the taxpayers who built and maintain them? And does the present more or less uncontrolled commercial traffic on the highways, under the conditions outlined above, constitute fair competition to the railways? Do the advantages of service provided over short distances by these commercialized highway companies compensate for the losses in railway service being sustained? In the long run, will the country be the winner or the loser?

Felt Tired Out All Day Could Not Sleep at Night

Price 50c a box

Mrs. Adolande Lalonde, 2181 St. James St., Montreal, Que., writes: "After a spell of the grippe I was left very nervous, and felt drowsy and tired out all day, and could not sleep at night. I was also troubled with my heart and did not feel at all like working. I was told about Milburn's Heart and Nerve Pills and after taking four boxes I was completely relieved of my trouble, and can recommend your Pills to everyone.
 Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont."

Bessborough Old Name To British Columbia

Bay Off Johnston Strait Named After Ancient British Family

Bessborough, the name which has been on all Canadian lips since the appointment of the Earl of Bessborough as Governor-General of Canada, has been known to British Columbia, particularly those who have travelled the famed inside passage to Alaska for 60 years. This province's association with the name goes back to 1865, according to Henry W. Schofield, district passenger agent of the Canadian Pacific Railway and well-known historian. In that year Bessborough Bay in Buxton Channel, off Johnston Strait, which forms part of the inside passage, was so named in honor of the ancient British family.

According to Mr. Schofield, who traced the origin of the name to Capt. John T. Milburn's authoritative "British Columbia Coast Names," the bay was named after the "Noble House of Bessborough."

The holder of the title at that time, the reference states, was John Bessborough Pimmsbury, fifth Earl of Bessborough and Baron Duncannon. His nephew, Edward Pimmsbury, was a midshipman in the Royal Navy, serving then on the B.C. coast.

"THESE HARD TIMES"

"The hard times and scarcity of money makes it more important than ever to economize. One way I save on clothes is by renewing the color of faded or out-of-style dresses, coats, stockings, and underwear. Fast dyeing or tinting. I always use Diamond Dyes. They are the most economical one I try because they never fail to produce results that make you proud. Why, things look better than when redyed, with Diamond Dyes. They never streak, or run. They go on smoothly and evenly, when in the hands of even a ten-year-old child. Another thing, Diamond Dyes never take the life out of cloth or leave it limp as some dyes do. They deserve to be called "the world's finest dyes." S. B. G., Quebec

Many New Industries

Over Three Hundred Established On Lines Of Canadian National

During 1929 a total of 316 new industries established themselves on the lines of the Canadian National Railways in Canada, according to the annual report of the system, which was tabled in the House of Commons recently. The founding of these industries in Canada involved a capital expenditure of \$17,000,000; additions to existing plants were made at an approximate cost of \$30,500,000.

Persian Balm—the ideal toilet requisite for every discerning woman. Perfect in results. Creates collections of rare beauty and charm. De-lightfully cool and refreshing. Never leaves a trace of stickiness. A velvety smooth skin toning and stimulating the skin. Making it truly radiant in texture. All dainty women invariably choose Persian Balm. It imparts that subtle distinction so characteristic of the elegant woman.

Argentines May Visit Canada

The Canadian delegates who visited South America to attend the British Empire Trade Fair at Buenos Aires, hope that a large body of Argentines will visit Canada and attend the annual gathering in Regina of the Canadian Chamber of Commerce during the coming summer, J. H. Woods, of Commerce stated upon his arrival at Montreal.

Miller's Worm Powders do not need the after-help of castor oil or any purgatives to complete their thoroughness, because they are thorough in themselves. One dose of them, and they will be found palatable by all children, will end the worm trouble by making the stomach and bowels unattractive to the parasites. And not only this, but the powders will be certain to exert most beneficial influence in the digestive organs.

Preparedness

Instead of a wife in front of hat-shop My dear, it's no use your looking at those hats. I've only fifty cents in my pocket.

Wife: you might have known that I'd want to buy a few things when we left the house.
 Hubby: I did.

England is to leave a new training college for film artists.

Too much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms, such as headaches, gas, heartburn, etc., will disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine, prescribed by doctors for conditions due to excess acid. Look for the name Phillips' and the word "genuine" in red. (Made in Canada)

Innovations In Census Taking

'Planes To Be Used In Far North and Survey Of Eskimo Population Taken

"The aeroplane will be used for the first time in the history of Canada to count the population in the stretches of the Far North," stated E. S. MacPhail, chief of the division of census and vital statistics, Ottawa. Arrangements have also been made for a complete survey of the Eskimo population. This is being done for the first time also.

The actual count will start on June 1, it being expected that the entire enumeration will be completed before the end of June. The unorganized portions of the great north lands will be enumerated by members of the Royal Canadian Mounted Police, while aeroplanes will be used for the taking of the census along the west coast of the Hudson Bay.

New highways opened in the United States last year had a total mileage of 7,992, while those constructed in Canada covered 8,083 miles.

In one ton of water from the Dead Sea there are 187 pounds of salt.

Wire Strings For Violins

A musician in Germany has been experimenting with fine silver wire that has been slightly roughened for violin bows. Great sensitiveness and brilliance of tone are achieved, it is said, with the new strings.

Richest Deposit Of Radium In The World Is Found In The North-West Territories

The richest deposit of radium in the world lies at Great Bear Lake, 1200 miles north of Edmonton in the Northwest Territories.

Such was the fact disclosed, when Dr. J. A. Allan, head of the department of geology, at the University of Alberta, revealed results of analysis just completed by provincial and university officials of pitchblende ore samples taken from that area.

On the basis of the samples analyzed, Dr. Allan estimated the value of the ore at \$8,600 a ton.

Not only was this radium-bearing pitchblende to be found at Echo Bay, on Great Bear Lake, but the geologist indicated it might also be located in the pre-Cambrian Shield that covers 12,000 square miles of Alberta.

The ore samples sent to the University by A. L. Cummings, supervisory mining engineer for the Dominion Government at Fort Smith, are practically pure pitchblende, Dr. Allan stated. They run richer in pitchblende and with less residue than the ores taken from the mines in the Belgian Congo, now the only large scale radium producing mines in the world.

Mineralogical analysis, conducted by J. A. Allan, M.S., Ph.D., F.R.S.C., and L. Rutherford, M.Sc., Ph.D., show that the uranium ore is contained in a particularly rich pitchblende or anomalous uraninite.

Radioactivity tests of the pitchblende, conducted by E. H. Boomer, M.S., Ph.D., show that the mineral contains approximately 182 milligrams per ton, approximately 17 times as strong as standard Colorado carnotite.

Since radium is worth approximately \$70 per milligram, a ton of the Echo Lake pitchblende would be worth approximately \$12,000 per ton. This would mean that the ore containing 66 per cent. pitchblende, would be worth about \$8,600 per ton.

"These analyses," Dr. Allan declared when interviewed recently "show that one gram of radium is contained in every six tons of the pitchblende."

"The discovery of pitchblende in the pre-Cambrian rock of Canada," he continued, "of great national importance, not as much because of this particular deposit about which so little is known, but because of the knowledge that there is pitchblende to be found in the great area of pre-Cambrian rock which lies exposed for over 2,000,000 square miles in Canada."

"It means that there has been discovered a great national wealth which Canada had not previously realized. There is no reason for suggesting that the ore body from which these samples were taken is the only portion of the vast pre-Cambrian shield where the pitchblende ores occur."

In the Path Of Peace

Denmark Votes To Abolish The Army And Navy

Denmark's Parliament lately voted to abolish the army and navy, leaving no more than a police force and a coast guard capable of regulating shipping and customs service. Whether this means the passing of military pomp and naval process from a nation once mighty at sea, it is a fact that Denmark hasn't the man power nor the industrial resources to make it mighty in modern warfare. Yet the Danes, once dread marauders by land and sea, have followed peaceful paths to a much finer destiny. Daily Outlookman.

"Those eggs are too small."
"Wait a minute, I can have them put back on the nest for a moment."
—Fables Gales, Yverdon.

W. N. U. 1887

Advice Worth Considering

Parents Should Not Date Children With Topical Names

Some parents cannot resist the temptation to give the new baby a Christian name that is topical. Let some celebrity visit the neighborhood, some great event happen, even a battle or a horse race, and the unfortunate infant who happens along at that time, is liable to be given an eponymous name which dates their birth for evermore.

Recently there have been twins afflicted with the names of Anson and Andy. There are Ramsay MacDonalds even in Canada, and throughout the British Empire there are thousands of little girls today bearing the name Elizabeth because they were born about the same period as the popular Duchess of York's elder daughter. During the war there were boys christened Vimy and Haig and lots of other names that will sound funny to them when they grow up.

Many girls owe the name Alma to the fact that their grandmothers were so named during the Crimean war. And there are legions of boys today who are Nelsons and Wellingtons, handed down from their ancestors, and who move as much warlike in their make-up as a mouse.

If you are thinking of a name for the baby don't give him or her a name that will "date."

Extend Invitation To Prince

Hopes That His Royal Highness Will Open World's Grain Exhibition

Sixteen countries have so far accepted the invitation of the Canadian Government to send official representatives to the World's Grain Exhibition and Conference to be held at Regina, July 25 to August 6, 1932. The countries from which word has been received that they will be represented by delegates and exhibits are: Italy, Peru, Yugoslavia, Guatemala, New Zealand, Czechoslovakia, The Netherlands, Belgium, Poland, India, Portugal, Switzerland, Estonia, The Philippine Islands and Argentina. It is expected that about 50 countries will be represented when the exhibition and conference opens next year.

The management is hopeful that H.R.H. the Prince of Wales will officially open the exhibition. An invitation to do so was extended to him at the British Industries Fair at Buenos Aires, Argentina, on March 14th last, by Sir George Preley, member of the Canadian Government who was the official representative of Canada at the opening ceremonies of the fair at Buenos Aires.

Pure Maple Products

Government Regulations Result In Marked Improvement In Quality

One effect already noticeable in connection with the 1931 maple products crop is marked improvement in the purity and quality of the syrup and sugar coming out the market. This is attributed to the provisions of the new Maple Sugar Industry Act and Regulations which came into effect March 1. Under its provisions commercial manufacturing and packing plants selling their product outside the province in which the plant is located require to be licensed, and all other commercial plants require to be registered. In the case of private owners of sugar bush or orchard a license is required only in such cases as where the product of the bush is sold outside the province in which it is located, and for this license there is no fee charged.

To End Depression

Co-operation of the governments of the world in an effort to reach agreement on a universal remedy for present depression was declared to be necessary for the restoration of prosperity by Sir George Preley, internationally known economist and former editor of the London Statist, in an address before the Empire Club at Toronto.

A report states that 60,000 windowless sleeping rooms are used in the borough of Brooklyn, N.Y., in violation of the tenement house law.

FIRST ZONE MANAGER

W. J. McLeod, whose appointment as farm manager for zone No. 4, with headquarters at Moosemin, Sask., has been announced by the Colonization Prince Corporation of Canada, Limited. Mr. McLeod is the first zone manager to be appointed by the corporation for Saskatchewan. He was also the first appointee of the Saskatchewan Department of Agriculture to introduce representative agricultural work in that province in which capacity he has been located at Govan, Sask., since 1920.

Industry Is Growing

Large Numbers Of Package Bees Shipped From Southern States Into North

Shipping package bees into the North from several Southern States has grown to such a large volume that the shippers are now asking for a reduction of express rates from one-and-one-half first-class to first-class rates. This movement was started by a committee of the California State Beekeepers' Association. Prices of package bees have been reduced from year to year, the 1931 prices being the lowest in the history of the package-bee business. The production of package bees and early queens to go with them has been so greatly improved within recent years that the troublesome delays in shipping, which often occurred years ago, have been almost completely eliminated. The progress made during the past few years in this phase of beekeeping is most remarkable.

The Retort Counters

In Winnipeg police court the prosecutor observed in trying a case, that "the law is on the side of the pedestrian." A. B. Shabane, defending, replied grimly, "Yes, and so are the bumper trucks."

ROUOL DANDURAND VISITS WASHINGTON

Hon. Rouol Dandurand, left, and Marchant Mahoney, charge d'affaires of the Canadian legation at Washington, seen at the White House recently, when the former was presented to President Hoover.

Believes Scientists Might Turn Wheat To Many Other Uses Than Being Used Solely As Food

Census Takers Will Visit Northern Indian

Checking Up On Population In Saskatchewan This Year

The census-taker goes north this year. He will count heads in Saskatchewan's forest empire and check up on Indian population in ten bands north of 53. It will be an all-summer job that will carry enumerators through more than 1,500 miles of wilderness country and provide the first Indian census in a decade.

Indian department records place the present population of Cree and Chipewyan in northern Saskatchewan at 2,350. These are scattered in ten localities from Big River to Brochet.

They do not include the non-treaty Indians, half-breeds, Eskimos and white population of the northern half of the province.

Census enumerators will be part of the Indian treaty party to head north from Regina about June 6 on the first leg of a ten weeks journey through the north.

The treaty party will be under the direction of William Muirson, Regina, inspector for the department of Indian Affairs. Dr. Weatherhead, government medical officer at the Ile a la Crosse hospital, will join the party at that northern post.

Treaty party officials will travel by canoe over the entire route from Big River, northwest of Prince Albert, to the north end of Reindeer Lake and then south and east to The Pas.

The party will assemble at Prince Albert and will include six or eight Indian canoeists from The Pas. They will embark in four canoes at Big River.

Grain Exports

Montreal Port Is Looking Forward To A Busy Season

Between 12 and 14 million bushels of grain were booked for export shipment out of the port of Montreal during late April, and the month of May, twice as much as booked at this time last year.

From 30 to 35 tramp vessels have been chartered already to carry the first shipments out of Montreal, while liners departing will also carry quantities of grain.

The loadings, declared by dealers to be most encouraging for a busy season, are due mostly to the pick-up in export grain demand.

"Won't some millionaire endow a research laboratory for wheat?" That is the plea contained in a letter forwarded to prominent Toronto business men by a local firm, which believes wheat might be turned to many other uses than for food, and that increased utilization of the grain would help solve a great national problem.

The possibilities are suggested of a healthful, new non-intoxicating beverage, or a new medicinal discovery made from wheat; the combination of a distillation of wheat with tomato juice, cod liver oil, and the uses of wheat, or its products as a new food element, which might be mixed with gasoline to improve that product.

Wheat, the letter notes, is composed of chemical elements that might be combined with a number of other chemical elements to produce a wide variety of new uses for wheat entirely distinct from its use as a food product.

"Put money and brains into research for wheat and there's no telling what wonders creative imagination and chemical skill might discover," the letter remarks, and concludes with the suggestion that a non-political group of business men get together and take this matter up with the Dominion Government, or themselves organize a national wheat research laboratory, to be endorsed by patriotic subscription. The government, the Wheat Pool and the transportation companies would be justified in investing millions in this work."

New Elevator At Churchill

One Of The Most Modern Grain Handling Plants On The Continent

The essential steel products for the Canadian Government grain elevator being erected at Churchill, terminus of the Hudson Bay Railway, will shortly be shipped from Winnipeg. These steel products include conveyor legs and spouting, dust collecting systems, raising shaft, rolling doors for track sheds, fire doors, etc., all of which will go into the making of one of the most modern grain handling plants on the continent. The Churchill elevator is to have a capacity of 2,000,000 bushels. It will be completed in time to handle test shipments of this year's grain from the Prairie Provinces to Europe by the Hudson Bay route.

Bees Carry Heavy Loads

About Half Their Own Weight Is Average Estimated

It has been estimated that an unladen honeybee can fly about 25 miles per hour, but that it seldom flies faster than 15 miles per hour. When weighted with nectar, it often flies as rapidly as when unladen, although it sometimes stops to rest on a long journey, bees with very heavy loads may become exhausted when flying over lakes and rivers, fall into the water and drown. A heavily loaded bee sometimes makes an ungainly landing at the apertures leading into the hive or dropping to the ground before it. The load of nectar which the bee brings to the hive varies with the density of the nectar, but the average load is about 40 milligrams, or about half the weight of the bee.

South Africa expects to produce 1,000,000 bags of maize this year.

Accused: "How could I commit forgery when I can't write my own name?"
Judge: "You are not accused of writing your own name."—Vari Item, Stockholm.

OTTAWA SCIENTIFIC INQUIRY CENTRES ON WHEAT INDUSTRY

It is probably safe to say that no phase of scientific inquiry and no laboratory devoted to such inquiry in Canada has played a more important part in the economic development of the Dominion than has that connected with the milling and baking of new wheats as conducted at the Central Experimental Farm. Here one may listen to the daily hum of a miniature flour mill and may examine the numerous test loaves produced from new wheats brought in from the numerous experimental farms and stations throughout Canada, at which points they are being tested for yield and other economic characters.

The even in which the world-famous Marquis wheat—a production of the Ottawa farm—was first baked some twenty years ago, is still in use here, where it is doing its bit in connection with an aggressive program which seeks to produce for Canada better and still better wheats.

Undoubtedly one of the best assets possessed by Canada today is the high quality of her wheat. Canada's wheat is prized above all for its superb quality, which is reflected in its ability to provide "strength" to blends of weaker wheats, such as those produced in Great Britain, Italy, France and Germany. While the wheats of Argentina and Russia may approach in quality the wheat produced in the Dominion, yet the Old Country miller still regards Canadian wheat as the "King of Wheats."

The importance to Canada of maintaining a high standard in the quality of her wheats has long been recognized by those who have been officially connected with the promotion of plant breeding problems. As a result, no new wheat, no matter how productive, has been able to obtain the stamp of approval and to get into general circulation before being put to the acid test, first, of the experimental mill and bake shop and finally of the larger commercial establishments.

It was at the Experimental Farm here that the outstanding quality of Marquis was first recognized as a result of the exacting tests to which it was subjected.

It was at the same institution and through the same oven that the newer introductions known as Reward and Garnet came to be picked out from hundreds of other forms as being worthy of further investigation and development. The superlative qualities of Reward wheat were very quickly demonstrated, although it took

LOCAL & GENERAL

Mr. and Mrs. Hilliard and Mr. and Mrs. Axtell motored to Edmonton to spend the 24th.

Mrs. Dr. Clarke spent several days visiting friends in Edmonton last week.

Mrs. Seagrave, of Aene was the guest of Mrs. W. H. B. Sharp for a few days last week.

Mr. and Mrs. E. G. Ranton and family spent the holiday at Edmonton and Cooking Lake.

Mr. Bob Griffin, of Sweet Grass, Montana is renewing acquaintances here this week.

Miss Florence Reiber, of Calgary spent the holiday with her parents, Mr. and Mrs. H. M. Reiber.

Miss Marian Leeson, of the Alberta staff, Calgary, spent the week-end with her parents here.

Mrs. J. Morgan, of Calgary visited with Mr. and Mrs. H. W. Morgan over the week-end.

Mr. and Mrs. Parker Reed and family, of Calgary visited with Mr. and Mrs. Harry Pearson on Sunday.

Miss Mertice Fisher, of Calgary, spent the week-end with her parents, Mr. and Mrs. A. O. Fisher.

The regular meeting of the Canadian Legion will be held in the Odd-fellows Hall on Saturday evening at 8.30. General business and social is the program.

Mrs. W. D. Spence and daughter Barbara who have been visiting in the Old Country for the past year are expected to arrive home on Friday.

Carstairs has installed a new fire alarm to replace the old firebell. They claim it can be heard for ten miles and that it is proving satisfactory.

The members and friends of St. Cyril's A.Y.P.A. had a picnic dinner at the Dog Pound, Sunday. After Sunday school the party were conveyed by cars and trucks to the picnic grounds. The afternoon was spent in fishing and playing games.

Some years before it was discovered that this wheat when grown under a wide range of conditions throughout Western Canada particularly, produced a relatively constant quality. This discovery was of the utmost importance, since the ability to produce high quality under a wide range of different conditions of soil and climate is a characteristic of immeasurable value. Agronomically this wheat was found to ripen in about a week earlier than Marquis, which made it a variety of distinct value for areas likely to suffer from early summer frost.

TOURIST TRADE NOW IS SECOND INDUSTRY

MONTREAL.—The second most important industry in Canada is the tourist trade, says Theodore Morgan, president of the Montreal Tourist and Convention Bureau, and he urges that everything possible may be done to entice the tourist across the border in order to enlarge Canada's revenue and compensate somewhat for the adverse trade balance with the United States.

It was Mr. Morgan's opinion that the tourist trade was more important than the exploitation of minerals and he hoped that before long the figures of 5,000,000 tourists would be greatly enlarged. In speaking of the attractions of Canada, as compared with other lands, Mr. Morgan said that in the Rocky Mountains alone we have twenty Swiss lands in one. Then he described the beauties of Muskoka, Lake of the Woods, the Laurentians and the Maritimes, and declared that the uninhabited regions of Canada will eventually not only attract American to come to Canada for their vacations, but also to build their summer homes here.

The Census of Canada 1931.

In the opening weeks of June every family and every home in Canada will be visited by a representative of the Government for the great national purpose of taking the seventh census of Canada.

The census is really a stocktaking. That is, it provides the information to enable the Government and others interested in the development of the country to formulate progressive policies for the happiness, comfort and prosperity of our people.

All the information supplied is strictly confidential, and the officers of the Government are subject to severe penalty if they disclose any of the information which is given to them by residents in the country, to any other than the Government.

Furthermore, it has nothing whatever to do with taxation, or military service, or compulsory school attendance, or immigration, or any such matter; and the Government itself cannot use it except for statistical totals.

The Government representative will put the same questions to all, and it is your duty as a resident of this country to answer promptly and truthfully. The Government is very anxious to avoid forcing anyone to answer these questions, but it is empowered to do so in the few cases where individuals may refuse.

Local News

Mr. and Mrs. J. Fleury spent the
week-end in McLeod.

Mr. and Mrs. Nyle Hunsperger
and baby, were visitors to Red-
Deer last week.

Mr. Gordon Brubaker, of the
Royal Bank, Gladaby, visited his
parents over the week-end.

Mr. and Mrs. Harold Clemens and
Miss Jean, of Edmonton, spent the
holidays with Mr. and Mrs. Clemens.
Mr. Eddie Clemens, of Calgary,
was also home for the week-end.

Mr. Melvin Hugel went to Stettin
to take part in the golf tourna-
ment which was held on Sunday
and Monday. It is reported that
Melvin made a very good showing.

A special young peoples service
is planned for next Sunday evening
in the Ev. Church, under the aus-
pices of the Junior and Intermediate
groups of Christian Endeavor. A
line program of music, song and
speeches will be rendered.

A sale of home-cooking will be
held in the Leuzler School, Saturday
afternoon, May 30th at 3 p.m.
Afternoon tea will be served and
business men's supper given from 5
to 7 p.m. These activities will be
in charge of the W.C.T.U. A table
of home-cooking and farm prod-
ucts will be in charge of the Junior
ladies. Tea: 25c and supper 35c.

The C.G.T.I. girls are again
bringing to Didsbury Miss Kathleen
Green, the girl electioneer who se-
dited her audience here on her
last appearance. This time she will
present "Pollyanna," L. M. Mont-
gomery's celebrated story. The
recital will be given in Knox United
Church on Friday, May 29th at
8:15 p.m. Admission: 85c and 15c.

On Friday, May 22nd, the High
School Literary Society held their
last meeting in the form of a social
afternoon. After the necessary
preliminaries and the reading of
the "Didsbury High School Dodge"
the greater part of the student body
vent over to the Public School
basement and there participated in
some exciting games. On returning
to the High School everyone enjoyed
the timely refreshments of salad,
lemonade and candy. The society
has scarcely more than begun, but
to the organization of the coming
school year we predict even greater
success.

Destroy Gophers, Crows & Magpies—Cash Prizes

Cash prizes ranging from fifty
cents to two hundred dollars will be
paid by the Department of Agricul-
ture for gopher tails; feet and eggs
of crows and magpies taken in 1931
on or before September 1st. Points
will be credited as follows:

- 1 point for each gopher's tail.
- 2 points for each crow's foot.
- 2 points for each magpie's foot.
- 4 points for each crow's or
magpie's egg.

All persons of school age or attend-
ing a Separate, Public or High
School may compete. Three hours
and cash prizes ranging from fifty
cents to seventy-five dollars will be
paid in their order to those obtain-
ing the greatest number of points.
For a copy of the regulations
apply to:

BENJ. LAWTON,
Game Commissioner,
Department of Agriculture,
Edmonton.

(791)
The Nova Scotia fish catch for
December last was 12,161,590 lbs.,
having a landed value of \$246,111,
as compared with a catch of 10,480,
709 lbs. with a value of \$229,552,
for the corresponding month of the
previous year.

Total amount of capital invested
in Canada from other countries as
at the end of 1930 was \$6,375,533,-
600, an increase of \$229,000,000
as compared with the total at the end
of 1929. Of this outside investment,
61 per cent. is said to be from the
United States; 35 per cent. British;
and 4 per cent. from other coun-
tries.

The yield of potatoes in Canada
in 1930 totalled 81,933,333 bushels,
from 574,560 acres, an average yield
of about 142 bushels per acre. In
1929 the yield was 66,550,000 bush-
els from 547,727 acres, or an average
yield of 122 bushels per acre. Potatoes
are grown successfully in every
province of the Dominion.

The Canadian Pacific Railway
has announced placing of orders
with the Algoma Steel Company of
Sault Ste. Marie for 30,000 tons of
130 lbs steel rail for spring deliv-
ery, representing a value of approxi-
mately \$1,500,000. This unusually
heavy rail will be laid on 150 miles
of the company's main line in the
Mountain Division of British Colum-
bia.

Prescott, Ont., Canada's newest
national port, is rapidly approach-
ing completion. The \$5,500,000
terminal which the Canadian Gov-
ernment is building there as a
turning point for the Upper Great
Lakes grain boats when they come
down through the Welland Canal in
the spring of this year will be
ready for traffic in advance.

Canoeing history was made at
Quebec recently when the seven
Lavoie brothers piloted their craft
over the ice-dotted waters of the St.
Lawrence between Quebec and St.
Lewis in the remarkable time of 9
minutes, 43 seconds, and took first
place in the canoe race which was
one of the features of the Quebec
Winter sports season with head-
quarters at the Chateau Frontenac.

"Melody Mike," Canadian Pacific
Railway radio feature given every
Monday night, is not only attract-
ing wide popularity in Canada; the
United States also like it and the
railway's radio department recently
had a letter from a school teacher
in Angola, New York state, asking
for 55 copies of Melody Mike's Fa-
vorite Irish songs, for distribution
among her pupils.

In 1930 the Dominion's gold pro-
duction was valued at \$42,000,000,
an increase of \$2,000,000 over 1929.
The capital investment in the min-
ing industry in Canada at the end
of 1929, the last year for which
complete industrial statistics are as
yet available, amounted to \$650,000,-
000. In that year the industry gave
employment to 86,040 men and paid
out in salaries and wages \$125,000,-
000.

ENO'S FRUIT SALT

To Feel Your Best

Take a dash of ENO'S "Fruit Salt" in a glass of water every morning. Millions do this daily because they know that ENO—gentle, effective, non-habit-forming—is the deadly foe of constipation.

In cases of acid stomach, fatigue, biliousness—ENO is invaluable. For more than sixty years it has been the standby in thousands of well-regulated homes.

But remember, only ENO can give ENO results.

CHAPTER XVI

Winters are long in Bakersville. The hills which shelter it from the wind, cut off much sun, and there are spots where the first snow stays till the ice on the river melts with the spring thaw.

Looking from her window on a day in February, Gay wondered, as she watched the new-fallen snow drifting against the hedge, if spring would ever come. The street was deserted of human life, but in the garden opposite, her bobbed hair protected by a scarf of emerald worsted, Lily Nipps was battling with frozen garrets on the clothes line, and from an upper window small Martha's face peered wistfully.

Gay waved a greeting. Probably the child was longing to cross the garden and play with the boys—poor little nate!—and Julie was doubtless too busy to button leggings and fasten overshoes, even if the wind had not been almost strong enough to lift the youngster from her feet.

Gay herself was rather weary of buttoning leggings. She longed for spring—for the pecking away of overcoats and mittens—for pussy willows, and the note of the first bluebird. She wanted these things even as she dreamed them because of the restlessness they brought to Nick. And she was worried about Nick. Julie would have said that he lacked "pep." He had certainly grown quiet this winter. He seemed older—less eager about everything. There were times when Gay ached at the change in him.

"Nick," she had said the night before, when he listlessly dropped the magazine he was reading to stare into the fire, "what is the matter? Aren't you feeling well?"

He started, as if his thoughts were far away; then smiled, and patted his knee by way of invitation.

"Come and sit here, Gay, so I'll be sure there's a reason for my existence. There have been times this

winter when I've wondered why some of us were born."

This was so utterly un-Nick-like that Gay felt frightened. She sat on his knee, slipping an arm about his neck.

"You mustn't have thoughts like that, dear old boy. I believe you're tired; or perhaps you've struck one of those dusty stretches along life's highway."

"There shouldn't be any dusty stretches when a man has a wife like you, and two splendid little boys. I don't understand my feelings. I despise myself for having them."

"Have we—got on your nerves?" She tried to speak calmly, but her voice trembled, and Nick rested his head against her shoulder for a moment before he answered.

"You're about the only thing that doesn't get on my nerves, darling. Put a heart at the bank. I should think they'd bounce me. Every time Hattie Williams comes down with one of her beastly colds and infects the place, I could commit murder. I did go so far as to tell her that she'd have fewer of them if she'd sleep with her windows open, and she told Johnny Symmes I was 'no gentleman.' I suppose I wasn't; but Johnny thought it an awful joke."

Gay laughed softly. "It was funny, dear. How should you know how much Miss Hattie ventilates her room?"

"I can tell by looking at her; and if anyone opens a window for fifteen minutes she has a fit. But nobody else seems to mind, so I must be the cranky one. I think you're a wonder not to have turned me out ages ago."

"I shall certainly turn you out to grass if you continue to feel like this. You can't be well, Nick. I wish you'd let Dr. Bennett look you over."

"Well, I shan't. He spoke irritably. 'Do you think I'll contract any more bills till I've paid what I owe now? If it wasn't for Uncle Sam I'd be ashamed to meet the doctor on the street. I tell you, Gay, the thought of another sickness for any of us would be the straw that broke the camel's back. We've got to keep well—all of us, for the next year.'"

His voice was strained. Gay stirred uneasily, and her arm tightened about his neck.

"You mustn't cross your bridges till you reach them," she said gently. "Haven't you told me not to worry, many and many a time? You act like someone who hasn't slept. Nick, you are sleeping, aren't you?"

"Yes; but somehow I don't feel rested in the morning. Oh, look here, Gay, forget it! You have enough to worry about without me."

She smiled, and suggested a game of checkers, inwardly resolving to see Dr. Bennett herself next day, and tell him how Nick was feeling.

She was thinking of this as she looked out at the drifting snow, and wondering if she had courage to walk to the doctor's office. She could leave the babies with Julie, who would be glad to have company for little Martha; but it was a bitter day, and she would have to face the wind for nearly a mile. As she hesitated, someone turned in at the gate his neck stretched in a grey murmur.

"Why, Mr. Maxwell!" exclaimed Gay, running to the door, "what brings you out on such a day?"

"The knowledge that in all probability you'd be at home."

He was unwinding the muffler, and letting the snow from his overcoat.

"Take them off," said Gay. "I've

a fire on the hearth, and I'll make you a cup of tea."

"Don't bother. I had a late lunch; and I never was much of a one for snaffles between meals. But I'll take off my things. I've a good deal to say. My dear, this room is delightful, and so is your fire."

He stood for a minute looking down at the blazing log, then at the two boys, quietly at play over their blocks. They had not noticed his entrance until now, when Sunny looked up and grinned in friendly fashion, saying: "This is a depot station. You want a ticket to Uncle Sam's?"

"I'll take two," answered John Maxwell solemnly, and produced imaginary payment as the little boy delivered two strips of bright green paper. Then he turned to Gay and seated himself beside her on theavenport. It was not John Maxwell's habit to beat about the bush. He said: "My child, I've come to see you about Nick. Has it struck you that he isn't quite himself?"

Gay's heart-beats quickened. "I know. He acknowledged as much last evening. I was just thinking I'd run down and talk him over with Dr. Bennett. He refuses to go himself—says he won't run up any bills."

"M—m," came from John Maxwell thoughtfully; then he said: "What did Nick tell you about himself, Gay?"

"Very little, except that everything gets on his nerves. And he has morbid thoughts—wonders why he was born, and things like that. I think perhaps he went to work too soon after his sickness."

"I'd thought of that, and it's been a severe winter. What he needs is a complete change. That's why I want to talk with you before I speak to him. You see, Gay, I can supply that change. Some business connected with settling old George Bennington's estate necessitates a trip to London. Bennington left his money in sugar, you know, and owned a good deal of property not far from Kingston. Some of it has deteriorated, and some increased in value, and we want to get everything appraised. He did a good part of his banking here in his home town, with us, and for some time Nick has taken charge of his books—after hours, of course."

"Perhaps he told you about it, and how much the old man talked to him about the sugar and fruit business, and general conditions in the tropics. Most of his land is now leased to the big companies. I really feel that unless I go myself, there's no one I'd rather send than Nick, because he knows all the details of the estate. I am sure he'd manage the business satisfactorily; and I could arrange it by putting Billy Owen temporarily in his place. Billy would like the change, as well as the extra cash it would bring him; and it would give Nick a wonderful chance to see the tropics. A sea voyage is just what he needs, and such an opportunity doesn't arise once in a lifetime; but I was speaking to Mrs. Maxwell last evening, and she advised my talking with you first. She wondered if you could spare him just now. You see, dear child, she told me your secret."

Gay drew a quick breath. She flushed over so slightly as she met John Maxwell's eyes.

"I could spare him of course, if it were for his good. How long would he be gone?"

"That's impossible to say. He might settle the business in a fortnight, and it might take several months, though that's not likely. In any case, I

FARMER'S WIFE GETS STRENGTH

By Taking Lydia E. Pinkham's Vegetable Compound

Wilton, Ont.—"I am taking Lydia E. Pinkham's Vegetable Compound for the Change of Life. It helps me and I can't praise it too highly. I was troubled with heat and I lost my appetite. I was too heavy so I could hardly do my farm work. I saw in the newspapers your ad about the Vegetable Compound and I thought I would give it a trial. The first bottle gave me relief and I have told others what it does for me. I am willing for you to use my letter if you choose." Mrs. D. D. PIERCE, Wilton, Ontario.

shouldn't want him to hurry back, for while he's there he ought to see things; but I suppose under the circumstances he wouldn't enter any longer than was necessary."

"When would you want him to start?"

"The sooner the better as far as we're concerned."

Gay smiled.

Marking An Important Epoch

Centenary Of First Steamship To Cross the Atlantic By Steam

Power

Marking the centenary of the launching of the famous steamship "Royal William," at Quebec, in the year 1831, the Imperial Order of the Daughters of the Empire embarked on a campaign to remind the Canadian public of the historic landmark. On April 26th it was exactly a hundred years since this celebrated steam vessel, the first to cross the Atlantic by steam power, was launched from the yards of Quebec, which in those days made Canada the most important ship-building country in the world.

In an interview on the celebration of the centenary Mrs. J. J. Steelman, Municipal Regent of the Imperial Order of the Daughters of the Empire, in Montreal, stated that, "Canadians are so accustomed to the idea of celebrating centenaries in other countries that they are likely to forget that Canada has her own great occasions for these celebrations. Although the importance of Canada as a ship-building country has diminished since the early days of the nineteenth century, Canadians may now take pride in the fact that April 26, 1831, marked the inauguration of a truly marvelous era of steam navigation, an era which has produced such vessels as the "Aquitania" and "Mauretania," with even larger steamers under construction. It has remained for the Imperial Order of the Daughters of the Empire to remind a public too ready to forget Canadian historic landmarks, of the interesting centenary of the launch of the "Royal William." By radio and through the press the Montreal chapters of the Order are seeking to disseminate as much information as possible concerning the launching of the great vessel."

The "Royal William" cost sixteen thousand pounds, and was launched amid most enthusiastic scenes in the historic city of Quebec. After a successful career on this side of the Atlantic, she made her historic crossing under her own steam, and served successively under various foreign flags. Her length was 176 feet, and her breadth including paddle-boxes 44 feet. The depth of hull was 17 feet nine inches. The rig was that of a three-masted topsail schooner. All these are in tremendous contrast to the great steamships of today like the "Boreganga," and the immense new 71,000-ton Cunarders now under construction.

Few of the original shareholders of the company which financed the "Royal William" may be traced to-day through their descendants, but among them were the three Cunard brothers of Halifax, including Samuel Cunard, afterwards knighted, and founder of the great steamship company which bears his name. The Cunard Line through their direct contact with the "Royal William" co-operated with the Imperial Order of the Daughters of the Empire in arranging for the centenary celebrations. The Cunard Line offered a series of prizes to winners of a contest available for school children in Verdun High School, in which essays on the subject of navigation on the Atlantic between the years 1820 and 1840 are being submitted. Verdun has been chosen because this is the dis-

home for Borden's CHOCOLATE MALTED MILK

WASH YOUR MOTHER'S MOTHERS! That's a full glass of Borden's Chocolate Malted Milk with which their little ones when they return from school and play. Children love its delicious flavor. It quickly restores depleted energy and vitality, and builds up strong sturdy little bodies.

trict in which the newly-formed Imperial Order of the Daughters of the Empire chapter called the "Royal William" is located. Two of the prizes will be a free trip to Quebec and back on Cunard ships this summer, and six other prizes offered are luncheon entertainments on board a Cunarder in port.

Little Helps For This Week

"God is with thee in all that thou doest."—Genesis xxxi, 22.

To duty firm, to conscience true. However tried and pressed; In God's clear sight high work we do, If we but do our best.

Let this day's performance be the measure of thy life religion.

—Margaret Fuller.

Follow duty if you would know the Christ-like calm in the presence of wrong; follow duty if you would change resentment into patience, resistance into forgiveness. Duty is the great mountain road to God.

—Jenkin Lloyd Jones.

Russian sugar is being imported into India.

for ANY CHILD

We can never be sure just what makes a child restless, but the remedy can always be the same. Good old Castoria! There's comfort in every drop of this pure vegetable preparation, and not the slightest harm in its frequent use. As often as your child has a fretful sleep, is feverish, or cries and can't sleep, let Castoria soothe and quiet him. Sometimes it's an touch of colic. Sometimes constipation, or diarrhea. — remember that should always be checked without delay. Just keep Castoria handy, and give it promptly. If it doesn't, you should call a physician.

Melvin Notes.

A number of our young people motored to Lone Pine, Monday.

Miss Mildred Brown and Miss Bissett are spending the holiday with Mr. and Mrs. W. Davies.

Mr. Harry Gibson and family spent Monday with Mr. and Mrs. Peter Johnston.

Mrs. Johnston and Marion visited with Dorothy Youngs at Ennisdale on Monday.

Mr. and Mrs. Everett Clarke, of Didsbury spent Sunday with Mr. and Mrs. John Clarke.

Mrs. Ace Esler is spending a few days with Mrs. Lloyd Chandler.

Mr. and Mrs. Emil Krebs spent Thursday with Mr. and Mrs. Rands, of Cremona.

Mr. and Mrs. J. Luft and Mr. and Mrs. Alfred Cowitz were Sunday visitors at Cremona.

Elmer Cowitz had the misfortune to burn his car quite badly last Thursday evening.

We wonder why Jack wanted Ivan to fill his pew in church last Sunday evening?

The "Go-Getters" will open the club on Chas. Young's lawn on Saturday evening, April 30th when everybody is welcome.

Mrs. Peter Johnston and family visited at Mrs. Vetter's, Three Hills on Sunday. Ruth Johnston is spending this week with her sister, Mrs. Vetter.

The menfolk seem to have deserted our community for a while. The few who didn't go fishing are spending the week out west hauling logs.

Mountain View Notes

Miss Doris Brown spent the week-end in Calgary.

Mr. and Mrs. W. E. Towers, of Calgary were visitors in the district recently while en route from Pine Lake, one of the meccas for fishermen this holiday.

Mr. and Mrs. G. A. Guthrie and sons Ronald and Ivor, of Calgary, accompanied by Mrs. Massey and Miss K. Elliott were the guests of Mrs. E. A. Atkinson during the week-end.

The death of Miss Irene Haynes occurred in Calgary on May 20th. She had been in ill health for some time. The funeral took place at Crossfield on Friday the 22nd. The whole community expressed their heartfelt sympathy to Mr. and Mrs. Haynes in their sad bereavement.

The monthly meeting of the W.L. took place Thursday last in the Hall. Mrs. Imm took the subject of "Child Welfare." Great sympathy was felt for our faithful treasurer, Mrs. Haynes who was absent owing to the death of her daughter. After the meeting adjourned, refreshments were served by Mrs. H. Pearson and daughter, Mrs. M. Woods. All had the pleasure of seeing the latter's bonny twin daughters.

Three ladies out for a hike one evening came across a monstrous porcupine strolling in a clump of poplar trees. One of the ladies, keenly interested in the live specimen took a stick to get Mr. Porcupine to display his powers of locomotion. Upon feeling the stick he gave a peculiar growl and a strong lurch of his tail which frightened the curious lady. Her interest was no longer keen and she heard one of the others remark: "Wouldn't it be a beauty for the Calgary Zoo?" As it grew dark ere they were to retrace their steps homeward, all decided to go by the road in case they might stumble against the barbed creature. This meant almost a four mile walk. However, a kindly neighbor drove the three of them home and all were thankful, as walking over plowed fields didn't prove very comfortable.

BASEBALL Rosebud League

Didsbury evened the count with the Olds ball team last Friday night when the locals pulled off a sweet 9-3 win.

Scotty Lee pitched four innings for Didsbury and allowed six hits for two runs. He was succeeded by Jim Devolin who held the visitors hitless, but allowed them another run, this being scored on a walk and two errors by Didsbury.

The home team found Raisblack and Johnson easy to hit and pounded out twelve safeties, including two base hits by Scotty Lee, Woodcock, Cook and Hugh Lee.

Line-up:
Didsbury: Wyman, 1b. Stauffer, s.s. Cook, 2b. S. Lee, p. H. Lee, 3b. Gooder, c. I. Woodcock, c. R. Berscht, r.f. C. Geiger, l.f. Devolin, p.

Olds: H. Gooder, 1b. Hood, s.s. McCall, 2b. J. Raisblack, p. Johnson, 3b. Holmes, c.f. T. Raisblack, c. Patmore, r.f. McCormick, l.f.

Didsbury: 1015-500-9-12-5
Olds: 014-010-3-6-5

Letter of Appreciation.

The following letter of appreciation was received by Mr. W. J. Fulkerth regarding the horses he exhibited at Edmonton this spring.

Dear Sir,
Allow me, on behalf of the president of the Edmonton Exhibition Association to thank you for the splendid exhibition given us each night of the Spring Show by your five-gaited horses.

I do not think any single section of our program excited more favorable comment than the exhibition given by your beautiful Kentucky horses. We certainly want to have these horses with us another year.

Yours sincerely,
P. W. ABBOTT,
Managing Director.

Coming Events

Canadian Legion B.E.S.L. First Annual Public Field Day & Sports, Didsbury Fair Grounds, Wednesday June 3rd. See big posters for the Special Attractions. Dance in the Opera House, 9 p.m. Don't forget the date.

RED CROSS

Donations of clothing especially for little children, will be gratefully received by the undersigned.

W. A. AUSTIN,
Secretary Red Cross Society

By the throwing of a switch in the Saskatchewan power house of the Saskatchewan Government Power Commission a new era for many towns in central Saskatchewan was recently introduced.

This act marked the entering of the new high tension power line to Shellbrook and the lighting up of that town and of a number of intervening towns by electricity supplied from the central electric station in Saskatoon. About 400 miles of power lines will be functioning shortly and a hundred towns will be effectively lighted and supplied with power.

More than half a million Christmas trees have been shipped from the Province of New Brunswick to points in the United States. The supply of Christmas trees from New Brunswick for United States comes entirely from privately-owned lands as the exportation of such trees cut on government-owned lands is forbidden.
